ASSAY STANDARDS

New Peptides 02/09

Key Organics is pleased to announce the addition of complex peptides to the Assay Standards Collection. These fully-synthetic peptides include biologically active agents, hormones and hormone fragments, and are all available in milligram quantities, non-exclusively, ex-stock.

Key Organics' peptide-synthesis partner has the technology and capabilities to undertake the synthesis of any peptide sequence, no matter how complex.

We welcome custom synthesis enquiries for any specific peptide sequence, please e-mail enquiries@keyorganics.net for further information.
